

## Agricultural Premises and Equipment

- Treatment of Water for Animal Consumption
- Treatment of Agricultural Storage Facilities\*
- Animal Confinement Facilities
- Treatment of Animal Transport Vehicles\*
- Treatment for Control of Odor and Slime Forming Bacteria in Animal Confinement Facilities
- Shoe Bath Use

## Poultry

- Poultry Chiller Water / Carcass Spray / Dip Water
- Treatment of Poultry Drinking Water
- Treatment of Egg Room\*
- Treatment of Hatching Room\*
- Treatment of Incubator Room\*
- Treatment of Tray Washing Room and Loading Platform\*
- Treatment of Chick Room, Chick Grading Box and Sexing Room\*
- Hand Dip for Poultry Workers

## Algaecide and Fungistat for Horticultural and Greenhouse Applications

- Treatment of Horticulture Work Area and Benches\*
- Treatment of Horticulture Pots and Flats\*
- Treatment of Horticulture Cutting Tools\*
- Treatment of Horticulture Bulbs\*
- Treatment of Greenhouse Glass, Walkways and Under Benches\*
- Treatment of Evaporative Coolers\*
- Treatment of Retention Basins and Ponds
- Treatment of Decorative Pools, Fountains and Water Displays

## Commercial, Institutional and Industrial Premises and Equipment

- General Disinfectant
- Deodorization of Animal Holding Rooms, Sick Rooms, Morgues and Work Rooms\*

## Food Processing Plants, Food Handling Establishments and Restaurants

- Sanitizing Solution for Food Contact Surfaces
- Sanitizing Solution for Non-Food Contact Surfaces
- Sanitizing Solution for Food-Processing Equipment in Dairies, Breweries, and Bottling Plants
- Sanitizer for Non-Food Contact Surfaces in Dairies, Breweries and Bottling Plants

- Ice Making Plants and Machinery
- Canning Retort and Pasteurizer Cooling Water
- Stainless Steel Transfer Lines, Hydrocoolers and Pasteurizers
- To Sanitize Clean Shell Eggs Intended for Food or Food Products
- Process Water for Vegetable Rinses Tanks and Lines
- Treatment for Red Meat Including Parts and organs , Ready to Eat Meats or Formed Meats
- Treatment of Water and Ice that are Used to Rinse, Wash, Transport or Store Seafood
- Treatment to Extend Freshness and Shelf Life of Uncut and Unpeeled Fruits and Vegetables\*
- For Use as a Lube Additive to Control Bacterial Some and Odor on Moving Conveyors and Chains in Food Processing Facilities\*
- Fruit and vegetable wash

#### Human Water Systems

- Treatment of Potable Water for Human Consumption
- Water Storage Systems Aboard Aircraft, Boats, RV's and Off-Shore Oil Rigs
- Municipal Well Waters

#### Industrial Processes and Water Systems

- Treatment of Cooling Water Systems, Process Water Systems, Flume Waters and Cooling Towers to Control Slime
- Reverse Osmosis, Nanofiltration, and Ultrafiltration Membranes
- For Microbial Control in Sweetwater Cooling Systems
- Deodorizer for Restrooms, Bathrooms, Refuse Containers, Diaper Pails and Storage Lockers
- Treatment of Swimming Pools

#### Ventilation Systems

- Treatment of Ventilation Systems
- Treatment of Industrial Air Washers, Humidifiers, and Evaporative Coolers

#### Prevention of Corrosion and Slime Causing Bacteria in Oil and Gas Wells During Secondary Recovery Operations\*

- Enhanced Oil Recovery Systems\*
- Hydro-Testing
- Pipeline Pigging and Scraping Operations\*
- Drilling, Packer, Completion, Work Over and Fracturing Fluids\*
